

## Accepted Manuscript

Removal of hydrogen sulfide generated during anaerobic treatment of sulfate-laden wastewater using biochar: Evaluation of efficiency and mechanisms

Jarupat Kanjanarong, Balendu S. Giri, Deb P. Jaisi, Fernanda R. Oliveira, Piyarat Boonsawang, Sumate Chaiprapat, R.S. Singh, Avula Balakrishna, Samir Kumar Khanal

PII: S0960-8524(17)30279-1  
DOI: <http://dx.doi.org/10.1016/j.biortech.2017.03.009>  
Reference: BITE 17713

To appear in: *Bioresource Technology*

Received Date: 29 January 2017  
Revised Date: 24 February 2017  
Accepted Date: 1 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
