Novel bio-electro-Fenton technology for azo dye wastewater treatment using microbial reverse-electrodialysis electrolysis cell

Xiaohu Li, Xiangdan Jin, Nannan Zhao, Irini Angelidaki, Yifeng Zhang

PII: S0960-8524(17)30008-1

DOI: <http://dx.doi.org/10.1016/j.biortech.2016.12.114>

Reference: BITE 17490

To appear in: *Bioresource Technology*

Received Date: 24 October 2016

Revised Date: 26 December 2016

Accepted Date: 31 December 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Novel bio-electro-Fenton technology for azo dye wastewater treatment using
microbial reverse-electrodialysis electrolysis cell
