

## Accepted Manuscript

Title: Increase in water evaporation rate with increase in static magnetic field perpendicular to water-air interface

Authors: Aliakbar Seyfi, Reza Afzalzadeh, Abazar Hajnorouzi

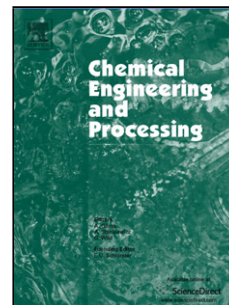

PII: S0255-2701(17)30015-6  
DOI: <http://dx.doi.org/doi:10.1016/j.cep.2017.06.009>  
Reference: CEP 7012

To appear in: *Chemical Engineering and Processing*

Received date: 10-1-2017  
Revised date: 17-6-2017  
Accepted date: 21-6-2017

Please cite this article as: Aliakbar Seyfi, Reza Afzalzadeh, Abazar Hajnorouzi, Increase in water evaporation rate with increase in static magnetic field perpendicular to water-air interface, *Chemical Engineering and Processing* <http://dx.doi.org/10.1016/j.cep.2017.06.009>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Increase in water evaporation rate with increase in static magnetic field perpendicular to water-air interface
