Title: Seawater reverse osmosis desalination plant at community-scale: role of an innovative pretreatment on process performances and intensification

Author: Mathias Monnot Dr. Hòa Thi Khánh Nguyễn Mrs. Stéphanie Laborie Dr. Corinne Cabassud Pr.

PII: S0255-2701(16)30432-9
DOI: <http://dx.doi.org/doi:10.1016/j.cep.2016.09.020>
Reference: CEP 6876

To appear in: *Chemical Engineering and Processing*

Received date: 21-3-2016
Revised date: 12-9-2016
Accepted date: 26-9-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Seawater reverse osmosis desalination plant at community-scale: role of an innovative pretreatment on process performances and intensification
