Title: Shock-induced cavitation as a way of accelerating phenol oxidation in aqueous media

Authors: Hugo Dutilleul, Anthony Partaloglu, Patrick Da Costa, Maria Elena Galvez

PII: S0255-2701(16)30515-3
DOI: <http://dx.doi.org/doi:10.1016/j.cep.2017.01.003>
Reference: CEP 6912

To appear in: *Chemical Engineering and Processing*

Received date: 11-10-2016
Revised date: 5-1-2017
Accepted date: 15-1-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

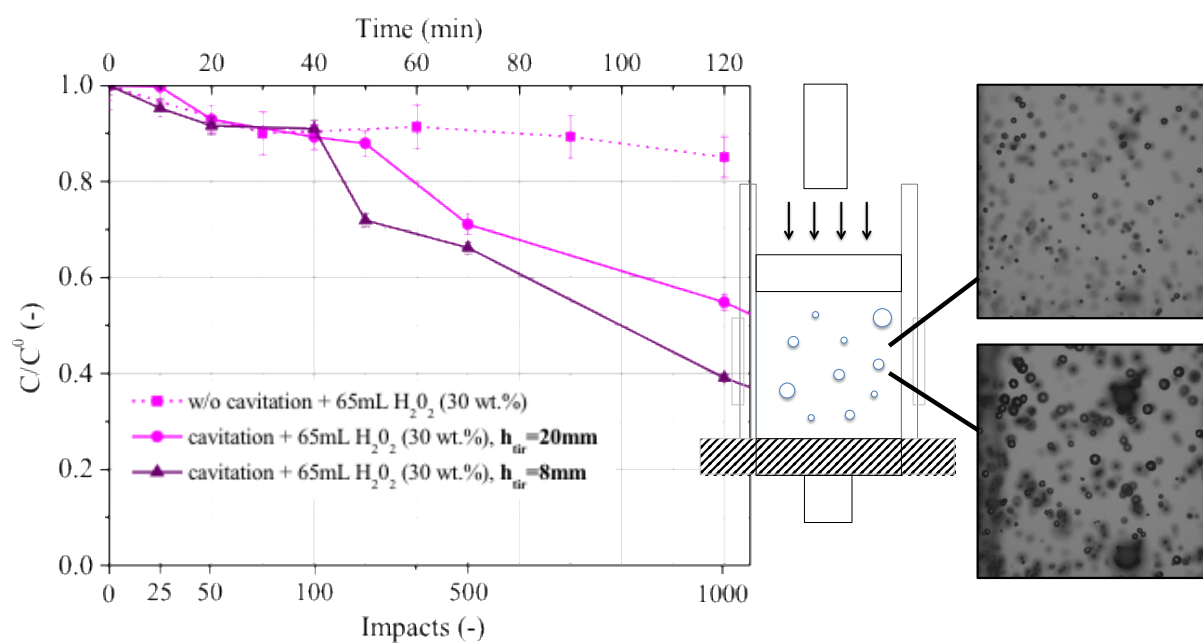

Shock-induced cavitation as a way of accelerating phenol oxidation in aqueous media

Hugo Dutilleul, Anthony Partaloglu, Patrick Da Costa, Maria Elena Galvez*
