Received date : 17 January 2017
Revised date : 24 May 2017
Accepted date : 5 June 2017

Please cite this article as: Gamel, J., Menrad, K., Decker, T., Which factors influence retail investors' attitudes towards investments in renewable energies?. *Sustainable Production and Consumption* (2017), <http://dx.doi.org/10.1016/j.spc.2017.06.001>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

Social norms, confidence in NGOs, and evaluation of the relevant regulatory framework influence retail investors' attitudes towards investments in renewable energies

The conceptual model used explains 49% of individuals' attitudes

German retail investors can be separated into "Supporters" and "Skeptics"
