Title: Carbon dots-modified silver nanoparticles as a new colorimetric sensor for selective determination of cupric ions

Authors: Asadollah Beiraghi, Seyed Ali Najibi-Gehraz

PII: S0925-4005(17)31069-9

DOI: <http://dx.doi.org/doi:10.1016/j.snb.2017.06.049>

Reference: SNB 22520

To appear in: *Sensors and Actuators B*

Received date: 14-1-2017

Revised date: 4-6-2017

Accepted date: 7-6-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Carbon dots-modified silver nanoparticles as a new colorimetric sensor for selective determination of cupric ions

Asadollah Beiraghi*, Seyed Ali Najibi-Gehraz
