Title: Development of an optical communication type biosensor for real-time monitoring of fish stress

Authors: Ryosuke Shinoda, Haiyun Wu, Masataka Murata, Hitoshi Ohnuki, Yasutoshi Yoshiura, Hideaki Endo

PII: S0925-4005(17)30442-2
DOI: <http://dx.doi.org/doi:10.1016/j.snb.2017.03.034>
Reference: SNB 21946

To appear in: *Sensors and Actuators B*

Received date: 21-11-2016
Revised date: 6-2-2017
Accepted date: 7-3-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Development of an optical communication type biosensor for real-time monitoring of fish stress
