Title: Determination of tetracycline in the presence of major interference in human urine samples using polymelamine/electrochemically reduced graphene oxide modified electrode

Author: Srinivasan Kesavan Deivasigamani Ranjith Kumar
Jae-Jin Shim

PII: S0925-4005(16)31718-X
DOI: <http://dx.doi.org/doi:10.1016/j.snb.2016.10.091>
Reference: SNB 21149

To appear in: *Sensors and Actuators B*

Received date: 7-7-2016
Revised date: 6-10-2016
Accepted date: 19-10-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Determination of tetracycline in the presence of major interference in human urine samples using polymelamine/electrochemically reduced graphene oxide modified electrode
