

## Accepted Manuscript

Modeling Self-Assembly and Capture Phenomenon of Two Droplets  
in High Aspect Ratio Microchannels

Kui Song , Xiaoling Hu

PII: S0045-7930(16)30375-9  
DOI: [10.1016/j.compfluid.2016.11.018](https://doi.org/10.1016/j.compfluid.2016.11.018)  
Reference: CAF 3339

To appear in: *Computers and Fluids*

Received date: 31 March 2016  
Revised date: 19 October 2016  
Accepted date: 30 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Try to early study droplets assembly (mainly done by experiments) with theory.
- Set up a theory model and explain assembly (capture) phenomenon reasonably.
- The work is useful for more droplets assembly studies then the applications.
