

## Accepted Manuscript

Characterizing Air Void Effect on Fracture of Asphalt Concrete at Low-temperature using Discrete Element Method

Jiaolong Ren, Lu Sun

PII: S0013-7944(16)30664-6  
DOI: <http://dx.doi.org/10.1016/j.engfracmech.2016.11.030>  
Reference: EFM 5334

To appear in: *Engineering Fracture Mechanics*

Received Date: 11 July 2016  
Revised Date: 25 November 2016  
Accepted Date: 25 November 2016

Please cite this article as: Ren, J., Sun, L., Characterizing Air Void Effect on Fracture of Asphalt Concrete at Low-temperature using Discrete Element Method, *Engineering Fracture Mechanics* (2016), doi: <http://dx.doi.org/10.1016/j.engfracmech.2016.11.030>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
