Pump drill: A superb device for converting translational motion into high-speed rotation

Zi-Long Zhao, Shiwei Zhou, Xi-Qiao Feng, Yi Min Xie

PII: S2352-4316(17)30127-X
DOI: <http://dx.doi.org/10.1016/j.eml.2017.09.001>
Reference: EML 304

To appear in: *Extreme Mechanics Letters*

Received date: 3 August 2017
Revised date: 30 August 2017
Accepted date: 1 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Pump drill: A superb device for converting translational motion
into high-speed rotation
