On the fragmentation of active material secondary particles in lithium ion battery cathodes induced by charge cycling

Guanhua Sun, Tan Sui, Bohang Song, Hong Zheng, Li Lu,
Alexander M. Korsunsky

PII: S2352-4316(16)30005-0

DOI: <http://dx.doi.org/10.1016/j.eml.2016.03.018>

Reference: EML 150

To appear in: *Extreme Mechanics Letters*

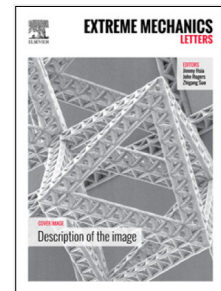

Received date: 7 January 2016

Revised date: 14 March 2016

Accepted date: 22 March 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
