

## Accepted Manuscript

Fatigue notch factors prediction of rough specimen by the theory of critical distance

Zhengkun Cheng, Ridong Liao, Wei Lu, Dandan Wang

PII: S0142-1123(17)30295-5

DOI: <http://dx.doi.org/10.1016/j.ijfatigue.2017.07.004>

Reference: JIJF 4400

To appear in: *International Journal of Fatigue*

Received Date: 11 January 2017

Revised Date: 2 July 2017

Accepted Date: 7 July 2017

Please cite this article as: Cheng, Z., Liao, R., Lu, W., Wang, D., Fatigue notch factors prediction of rough specimen by the theory of critical distance, *International Journal of Fatigue* (2017), doi: <http://dx.doi.org/10.1016/j.ijfatigue.2017.07.004>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
