

# Accepted Manuscript

Title: Viscosity Measurements of R32 and R410A to 350 MPa

Author: Scott Bair, Arno Laesecke

PII: S0140-7007(17)30296-7

DOI: <http://dx.doi.org/doi: 10.1016/j.ijrefrig.2017.07.016>

Reference: IJIR 3717

To appear in: *International Journal of Refrigeration*

Received date: 5-6-2017

Revised date: 10-7-2017

Accepted date: 27-7-2017

Please cite this article as: Scott Bair, Arno Laesecke, Viscosity Measurements of R32 and R410A to 350 MPa, *International Journal of Refrigeration* (2017), <http://dx.doi.org/doi: 10.1016/j.ijrefrig.2017.07.016>.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Viscosity Measurements of R32 and R410A to 350 MPa

### Scott Bair

George W. Woodruff School of Mechanical Engineering  
Center for High-Pressure Rheology  
Georgia Institute of Technology  
Atlanta, GA 30332-0405, U.S.A.
