Accepted Manuscript

Title: Optimization of operating temperatures in the gas operated single to triple effect vapour absorption refrigeration cycles

Author: Md. Azhar, M. Altamush Siddiqui

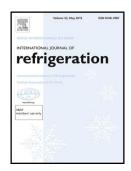

PII: S0140-7007(17)30267-0

DOI: http://dx.doi.org/doi: 10.1016/j.ijrefrig.2017.06.033

Reference: JIJR 3698

To appear in: International Journal of Refrigeration

Received date: 20-10-2016 Revised date: 26-5-2017 Accepted date: 27-6-2017

Please cite this article as: Md. Azhar, M. Altamush Siddiqui, Optimization of operating temperatures in the gas operated single to triple effect vapour absorption refrigeration cycles, *International Journal of Refrigeration* (2017), http://dx.doi.org/doi: 10.1016/j.ijrefrig.2017.06.033.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Title:

Optimization of Operating Temperatures in the Gas Operated Single to Triple Effect Vapour

Absorption Refrigeration Cycles

Authors:

Md. Azhar* and M. Altamush Siddiqui

Affiliation:

Computational and Experimental Heat Transfer Research Laboratory

Department of Mechanical Engineering

Z. H. College of Engineering and Technology

Aligarh Muslim University, Aligarh-202002, Uttar Pradesh, India.
