

Accepted Manuscript

Title: Comments on “Temperature–heat diagram analysis method for heat recovery physical adsorption refrigeration cycle – Taking multi-stage cycle as an example”

Author: M.M. Awad

PII: S0140-7007(17)30084-1

DOI: <http://dx.doi.org/doi: 10.1016/j.ijrefrig.2017.02.022>

Reference: IJR 3566

To appear in: *International Journal of Refrigeration*

Received date: 8-1-2017

Please cite this article as: M.M. Awad, Comments on “Temperature–heat diagram analysis method for heat recovery physical adsorption refrigeration cycle – Taking multi-stage cycle as an example”, *International Journal of Refrigeration* (2017), <http://dx.doi.org/doi: 10.1016/j.ijrefrig.2017.02.022>.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Comments on “Temperature–heat diagram analysis method for heat recovery physical adsorption refrigeration cycle – Taking multi-stage cycle as an example”

Highlights

- These comments are increasing the awareness of the different views on the entransy concept among the journal readers.
- Comments are presented in particular on the paper by Xu et al. [1].
- The “entransy” concept is a fake.
