Title: Experimental study on two-stage ejector refrigeration system driven by two heat sources

Author: Guangming Chen, Rongtao Zhang, Daibin Zhu, Shaojie Chen, Lingyun Fang, Xinyue Hao

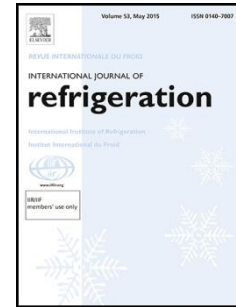

PII: S0140-7007(16)30339-5
DOI: <http://dx.doi.org/doi: 10.1016/j.ijrefrig.2016.10.010>
Reference: IJR 3453

To appear in: *International Journal of Refrigeration*

Received date: 4-6-2016
Revised date: 9-10-2016
Accepted date: 13-10-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Experimental study on two-stage ejector refrigeration system driven by two heat sources

2. Ningbo Institute of Technology, Zhejiang University, Ningbo, China
3. Ningbo Aux Electric Co., Ltd, Ningbo, China

Highlights:

- Two-stage ejector refrigeration system driven by two heat sources is studied.
- The system is designed, setup and operated for experimental results.
- The variable tendencies of system performance are achieved and analysed.
- Comparison to the single-stage ejector refrigeration system is stated.
