Title: Performance of cutting tools with dimple textured surfaces: a comparative study of different texture patterns

Authors: Tatsuya Sugihara, Toshiyuki Enomoto

PII: S0141-6359(17)30023-5

DOI: <http://dx.doi.org/doi:10.1016/j.precisioneng.2017.01.009>

Reference: PRE 6517

To appear in: *Precision Engineering*

Received date: 10-8-2016

Revised date: 2-12-2016

Accepted date: 17-12-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Type of contribution:

Original research paper

Title:

Performance of cutting tools with dimple textured surfaces: a comparative study of different texture patterns
