

Accepted Manuscript

The influence of the load frequency on the high cycle fatigue behaviour

Giovanna Fargione, Fabio Giudice, Antonino Risitano

PII: S0167-8442(16)30304-4

DOI: <http://dx.doi.org/10.1016/j.tafmec.2016.12.004>

Reference: TAFMEC 1793

To appear in: *Theoretical and Applied Fracture Mechanics*

Received Date: 30 September 2016

Revised Date: 22 November 2016

Accepted Date: 18 December 2016

Please cite this article as: G. Fargione, F. Giudice, A. Risitano, The influence of the load frequency on the high cycle fatigue behaviour, *Theoretical and Applied Fracture Mechanics* (2016), doi: <http://dx.doi.org/10.1016/j.tafmec.2016.12.004>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The influence of the load frequency on the high cycle fatigue behaviour

Giovanna Fargione^{a*}, Fabio Giudice^a, Antonino Risitano^a
