Title: Effects of extrudate swell and nozzle geometry on fiber orientation in Fused Deposition Modeling nozzle flow

Author: Blake P. Heller Douglas E. Smith David A. Jack

PII: S2214-8604(16)30116-6
DOI: <http://dx.doi.org/doi:10.1016/j.addma.2016.06.005>
Reference: ADDMA 103

To appear in:

Received date: 31-12-2015
Revised date: 4-5-2016
Accepted date: 1-6-2016

Please cite this article as: <http://dx.doi.org/>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Effects of Extrudate Swell and Nozzle Geometry on Fiber Orientation in Fused Deposition Modeling Nozzle Flow
