

Author's Accepted Manuscript

A finite element study on the mechanical response of the head-neck interface of hip implants under realistic forces and moments of daily activities: Part 2

Khosro Fallahnezhad, Hamidreza Farhoudi, Reza H Oskouei, Mark Taylor

PII: S1751-6161(17)30373-9
DOI: <http://dx.doi.org/10.1016/j.jmbbm.2017.08.038>
Reference: JMBBM2482

To appear in: *Journal of the Mechanical Behavior of Biomedical Materials*

Received date: 27 February 2017
Revised date: 22 August 2017
Accepted date: 25 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
