

Author's Accepted Manuscript

Constitutive Modeling of Jugular Vein-Derived Venous Valve Leaflet Tissues

Nayyan Kaul, Hsiao-Ying Shadow Huang

PII: S1751-6161(17)30283-7
DOI: <http://dx.doi.org/10.1016/j.jmbbm.2017.06.037>
Reference: JMBBM2397

To appear in: *Journal of the Mechanical Behavior of Biomedical Materials*

Received date: 17 April 2017
Revised date: 23 June 2017
Accepted date: 28 June 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain
