

## Author's Accepted Manuscript

Predicting the Mechanical Properties of Brittle Porous Materials with Various Porosity and Pore Sizes

Zhiwei Cui, Yongmin Huang, Honglai Liu

PII: S1751-6161(17)30072-3  
DOI: <http://dx.doi.org/10.1016/j.jmbbm.2017.02.014>  
Reference: JMBBM2235

To appear in: *Journal of the Mechanical Behavior of Biomedical Materials*

Received date: 22 November 2016  
Revised date: 11 February 2017  
Accepted date: 12 February 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain

# Predicting the Mechanical Properties of Brittle Porous Materials with Various Porosity and Pore Sizes

Zhiwei Cui, Yongmin Huang\*, Honglai Liu
