Vibration of laminated composite panels and curved plates with different types of FGM composite constituent

Ömer Civalek

PII: S1359-8368(17)30574-7

DOI: [10.1016/j.compositesb.2017.04.012](https://doi.org/10.1016/j.compositesb.2017.04.012)

Reference: JCOMB 5014

To appear in: *Composites Part B*

Received Date: 15 February 2017

Revised Date: 27 March 2017

Accepted Date: 12 April 2017

Please cite this article as: Civalek Ö, Vibration of laminated composite panels and curved plates with different types of FGM composite constituent, *Composites Part B* (2017), doi: 10.1016/j.compositesb.2017.04.012.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Vibration of laminated composite panels and curved plates with
different types of FGM composite constituent**
