Poly(methyl methacrylate)/boron nitride nanocomposites with enhanced energy density as high temperature dielectrics

Feihua Liu, Qi Li, Zeyu Li, Yang Liu, Lijie Dong, Chuanxi Xiong, Qing Wang

PII: S0266-3538(16)31844-9

DOI: [10.1016/j.compscitech.2017.02.006](https://doi.org/10.1016/j.compscitech.2017.02.006)

Reference: CSTE 6658

To appear in: *Composites Science and Technology*

Received Date: 27 November 2016

Revised Date: 8 February 2017

Accepted Date: 10 February 2017

Please cite this article as: Liu F, Li Q, Li Z, Liu Y, Dong L, Xiong C, Wang Q, Poly(methyl methacrylate)/boron nitride nanocomposites with enhanced energy density as high temperature dielectrics, *Composites Science and Technology* (2017), doi: 10.1016/j.compscitech.2017.02.006.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Poly(methyl methacrylate)/Boron Nitride Nanocomposites with Enhanced Energy
Density as High Temperature Dielectrics**
