

Author's Accepted Manuscript

An integrated rotary microfluidic system with DNA extraction, loop-mediated isothermal amplification, and lateral flow strip based detection for point-of-care pathogen diagnostics

Byung Hyun Park, Seung Jun Oh, Jae Hwan Jung, Goro Choi, Ji Hyun Seo, Do Hyun Kim, Eun Yeol Lee, Tae Seok Seo

PII: S0956-5663(16)31220-9
DOI: <http://dx.doi.org/10.1016/j.bios.2016.11.063>
Reference: BIOS9385

To appear in: *Biosensors and Bioelectronics*

Received date: 3 August 2016
Revised date: 16 November 2016
Accepted date: 28 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Full paper

An integrated rotary microfluidic system with DNA extraction, loop-mediated isothermal amplification, and lateral flow strip based detection for point-of-care pathogen diagnostics
