

## Accepted Manuscript

Control of lateral weight transfer is associated with walking speed in individuals post-stroke

HaoYuan Hsiao, Vicki L. Gray, Robert A. Creath, Stuart A. Binder-Macleod, Mark W. Rogers

PII: S0021-9290(17)30318-4  
DOI: <http://dx.doi.org/10.1016/j.jbiomech.2017.06.021>  
Reference: BM 8260

To appear in: *Journal of Biomechanics*

Received Date: 17 August 2016  
Revised Date: 21 March 2017  
Accepted Date: 13 June 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Control of lateral weight transfer is associated with walking speed in  
individuals post-stroke**
