Comparison of methodologies to assess muscle co-contraction during gait

H. Souissi, R. Zory, J. Bredin, P. Gerus

PII: S0021-9290(17)30190-2

DOI: <http://dx.doi.org/10.1016/j.jbiomech.2017.03.029>

Reference: BM 8180

To appear in: *Journal of Biomechanics*

Received Date: 19 September 2016

Revised Date: 7 February 2017

Accepted Date: 31 March 2017

Please cite this article as: H. Souissi, R. Zory, J. Bredin, P. Gerus, Comparison of methodologies to assess muscle co-contraction during gait, *Journal of Biomechanics* (2017), doi: <http://dx.doi.org/10.1016/j.jbiomech.2017.03.029>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Comparison of methodologies to assess muscle co-contraction during gait

H. Souissi¹, R. Zory¹, J. Bredin^{1,2}, P. Gerus¹
