

# Author's Accepted Manuscript

Ex Vivo Loading of Trussed Implants for Spine Fusion Induces Heterogeneous Strains Consistent with Homeostatic Bone Mechanobiology

Jason P. Caffrey, Esther Cory, Van W. Wong, Koichi Masuda, Albert C. Chen, Jesse P Hunt, Timothy M. Ganey, Robert L. Sah

PII: S0021-9290(16)31154-X  
DOI: <http://dx.doi.org/10.1016/j.jbiomech.2016.10.051>  
Reference: BM7961

To appear in: *Journal of Biomechanics*  
Accepted date: 30 October 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Title**

Ex Vivo Loading of Trussed Implants for Spine Fusion Induces Heterogeneous Strains

Consistent with Homeostatic Bone Mechanobiology

**Article Type**

Original Article
