

## Author's Accepted Manuscript

Novel multi-functional fluid flow device for studying cellular mechanotransduction

James S. Lyons, Shama R. Iyer, Richard M. Lovering, Christopher W. Ward, Joseph P. Stains

PII: S0021-9290(16)31230-1

DOI: <http://dx.doi.org/10.1016/j.jbiomech.2016.11.051>

Reference: BM8012

To appear in: *Journal of Biomechanics*

Accepted date: 12 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Novel multi-functional fluid flow device for studying cellular mechanotransduction
