Changes in sarcomere lengths of the human vastus lateralis muscle with knee flexion measured using in vivo microendoscopy

Xuefeng Chen, Gabriel N. Sanchez, Mark J. Schnitzer, Scott L. Delp

PII: S0021-9290(16)30765-5
DOI: <http://dx.doi.org/10.1016/j.jbiomech.2016.07.013>
Reference: BM7803

To appear in: *Journal of Biomechanics*

Received date: 28 December 2015
Revised date: 5 June 2016
Accepted date: 16 July 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Original Article

**Changes in sarcomere lengths of the human vastus lateralis muscle with knee flexion
measured using in vivo microendoscopy**
