

## Accepted Manuscript

Slow release of etoposide from dextran conjugation shifts etoposide activity from cytotoxicity to differentiation: A promising tool for dosage control in anticancer metronomic therapy

Milena De Nicola, Emanuele Bruni, Enrico Traversa, Lina Ghibelli

PII: S1549-9634(17)30080-1  
DOI: doi: [10.1016/j.nano.2017.05.004](https://doi.org/10.1016/j.nano.2017.05.004)  
Reference: NANO 1578

To appear in: *Nanomedicine: Nanotechnology, Biology, and Medicine*

Received date: 28 November 2016  
Revised date: 30 March 2017  
Accepted date: 8 May 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Slow release of etoposide from dextran conjugation shifts etoposide activity from cytotoxicity to differentiation: a promising tool for dosage control in anticancer metronomic therapy**
