This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

- Reviews research concerning the relationship between social class and leadership.
- Reviews research concerning social class and leader role occupancy/emergence.
- Findings suggest higher-class relates to leader emergence, but not necessarily performance.
- Suggests that class may relate to (mis)matched beliefs about how leaders and followers should act.
