6th July 2017

*Corresponding author: WBS, University of Warwick, Coventry, CV4 7AL. Email: Nattavudh.powdthavee@wbs.ac.uk. The authors are grateful to Andrew Clark, Paul Frijters, Carol Graham, Richard Layard, M. Hashem Pesaran, Andrew Oswald, Qiankun Zhou, and participants at the Well-Being seminar at London School of Economics for their many useful comments. R.V.B. and N.P. designed research; J-E.D.N. provided access to the GWP data; N.P. analyzed data; R.V.B., J-E.D.N. and N.P. wrote the paper. The Gallup World Poll data used in this research belongs to the Gallup Organization. The data are made available by the Gallup Organization for a fee. For more information, see: <http://www.gallup.com/services/170945/world-poll.aspx>. The data is made available for free to researchers who obtain "Research Advisor" status with the Gallup Organization. The British Household Panel Survey (BHPS) data used in this paper were made available through the UK Data Archive. The data were originally collected by the ESRC Longitudinal Studies Centre (ULSC), together with the Institute for Social and Economic Research (ISER) at the University of Essex. The World Top Income Database is made available from the Paris School of Economics' website at <http://topincomes.parisschoolofeconomics.eu>.
