Publisher's Note

The publisher regrets that due to an error in production the article entitled "Measuring Strategic Firm Interaction in Product-Quality Choices: The Case of Airline Flight Frequency" was wrongly included as part of this regular issue 2/4, rather than in the special issue for which it was intended.

This article is now replaced with this note and will be published in the correct special issue in the near future.

The publisher sincerely apologizes to the authors and the readers for any inconvenience this error may have caused.
