This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Research Highlights:

- Investigates complementarities between public and private funding.
- External funding increases ex-post publications and citations.
- Industry funding reduces publication increases associated with public funding.
- Industry funding and public funding act as complements towards patentability of research.
