This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- 1) The paper applies revealed comparative advantage measures to bilateral services trade
- 2) The US has a comparative advantage (CA) over China and India in most services
- 3) India and China have gained CA over the US in computer and information services
- 4) Relative abundance of labor, human capital, and foreign capital are sources of US CA
