This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- I study the adoption of market reforms in transition countries between 1989 and 2001.
- Culture is posited as a potential determinant of market-based institutional change.
- Individualistic and low power-distance cultures are associated with greater reform efforts.
