This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- We assess the impact of domestic regulations on international trade in services.
- While these regulation are not explicitly discriminatory, they impact trade
- Regulations in destination countries reduce the export probability and export value
- The estimated impact of regulations on trade is equivalent to a 60
- The impact is also large within the EU
