Acknowledgments

The authors would like to thank three anonymous reviewers for very their comments and suggestions. Moreover, we would like to thank Vic Adamowicz and the participants of the seminar at the Department of Resource Economics & Environmental Sociology at the University of Alberta, Edmonton, Canada, for fruitful discussions and valuable suggestions during a stay of Malte Oehlmann and Jürgen Meyerhoff at the department in autumn 2014. The research stay of Malte Oehlmann was supported by the German Academic Exchange Service “DAADDoktorandenStipendium”. Petr Mariel would like to acknowledge financial support from Basque Government through grant IT-642-13, Spanish Ministry of Economy and Competitiveness through grant ECO2014-52587-R. This paper was finalized when Petr Mariel
