September 25, 2016

*This research was conducted while Khan held the position of Visiting Research Fellow at the Australian National University, February 15–April 15, 2016, and he thanks the department for its hospitality, and Patrick Beissner and Bogdan Klishchuk for stimulating conversation. A preliminary version of the paper was presented at the "Fifth Asian Conference on Nonlinear Analysis and Optimization", Niigata, Japan on August 4, 2016. The final version was completed during Sagara's visit to Johns Hopkins University, August 13–21, 2016; it has benefitted from the careful reading and helpful comments of two anonymous referees. This research is supported by JSPS KAKENHI Grant No. 26380246 from the Ministry of Education, Culture, Sports, Science and Technology, Japan.
