

## Accepted Manuscript

Impact of marital status on health

Peter Richmond, Bertrand M. Roehner

PII: S0378-4371(17)30598-8

DOI: <http://dx.doi.org/10.1016/j.physa.2017.05.079>

Reference: PHYSA 18365

To appear in: *Physica A*

Received date: 14 February 2017

Revised date: 8 May 2017

Please cite this article as: P. Richmond, B.M. Roehner, Impact of marital status on health, *Physica A* (2017), <http://dx.doi.org/10.1016/j.physa.2017.05.079>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

- \* Census disability data are a possible substitute for death data.
- \* A change in living place results in a temporary disability spike.
- \* The post marriage disability rate decreases with time.
