Reformulation of time-convolutionless mode-coupling theory near the glass transition

Michio Tokuyama

PII: S0378-4371(17)30431-4

DOI: <http://dx.doi.org/10.1016/j.physa.2017.04.107>

Reference: PHYSA 18209

To appear in: *Physica A*

Received date: 6 December 2016

Revised date: 8 February 2017

Please cite this article as: M. Tokuyama, Reformulation of time-convolutionless mode-coupling theory near the glass transition, *Physica A* (2017), <http://dx.doi.org/10.1016/j.physa.2017.04.107>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

- (1) Reformulation of time-convolutionless mode-coupling theory
- (2) An improved TMCT equation
- (3) No change in a critical point in an old version and a new version.
- (4) Reasonable solution for non-Gaussian parameter
