Title: Linear solvation energy relationships in normal phase chromatography based on gradient separations

Authors: Di Wu, Charles A. Lucy

PII: S0021-9673(17)31139-1

DOI: <http://dx.doi.org/doi:10.1016/j.chroma.2017.07.095>

Reference: CHROMA 358742

To appear in: *Journal of Chromatography A*

Received date: 3-6-2017

Revised date: 29-7-2017

Accepted date: 31-7-2017

Please cite this article as: Di Wu, Charles A.Lucy, Linear solvation energy relationships in normal phase chromatography based on gradient separations, *Journal of Chromatography A* <http://dx.doi.org/10.1016/j.chroma.2017.07.095>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Linear solvation energy relationships in normal phase chromatography based on gradient separations

Di Wu and Charles A. Lucy*
