

## Accepted Manuscript

Title: Separation of enantiomers on chiral stationary phase based on cellulase: effect of preparation method and silica particle diameters on chiral recognition ability

Author: Hisami Matsunaga Jun Haginaka

PII: S0021-9673(16)30676-8  
DOI: <http://dx.doi.org/doi:10.1016/j.chroma.2016.05.069>  
Reference: CHROMA 357596

To appear in: *Journal of Chromatography A*

Received date: 25-3-2016  
Revised date: 19-5-2016  
Accepted date: 20-5-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Separation of enantiomers on chiral stationary phase based on cellulase:  
effect of preparation method and silica particle diameters on chiral  
recognition ability**
