Title: Validation of an analytical method for simultaneous high-precision measurements of greenhouse gas emissions from wastewater treatment plants using a gas chromatography-barrier discharge detector system

Author: Raffaella Pascale Marianna Caivano Alessandro Buchicchio Ignazio M. Mancini Giuliana Bianco Donatella Caniani

PII: S0021-9673(16)31534-5
DOI: <http://dx.doi.org/doi:10.1016/j.chroma.2016.11.024>
Reference: CHROMA 358055

To appear in: *Journal of Chromatography A*

Received date: 1-8-2016
Revised date: 15-11-2016
Accepted date: 17-11-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Validation of an analytical method for simultaneous high-precision measurements of greenhouse gas emissions from wastewater treatment plants using a gas chromatography-barrier discharge detector system
