Title: Stability and extraction of bioactive sulfur compounds from *Allium* genus processed by traditional and innovative technologies

Authors: Mahesha M. Poojary, Predrag Putnik, Danijela Bursać Kovačević, Francisco J. Barba, Jose Manuel Lorenzo, Daniel A. Dias, Avi Shpigelman

PII: S0889-1575(17)30098-4
DOI: <http://dx.doi.org/doi:10.1016/j.jfca.2017.04.007>
Reference: YJFCA 2878

To appear in:

Received date: 23-1-2017
Revised date: 6-4-2017
Accepted date: 12-4-2017

Please cite this article as: Poojary, Mahesha M., Putnik, Predrag., Kovačević, Danijela Bursać., Barba, Francisco J., Lorenzo, Jose Manuel., Dias, Daniel A., & Shpigelman, Avi., Stability and extraction of bioactive sulfur compounds from *Allium* genus processed by traditional and innovative technologies. *Journal of Food Composition and Analysis* <http://dx.doi.org/10.1016/j.jfca.2017.04.007>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Stability and extraction of bioactive sulfur compounds from *Allium* genus processed by traditional and innovative technologies
