

Accepted Manuscript

DFT and TD-DFT insights, photolysis and photocatalysis investigation of three dyes with similar structure under UV irradiation with and without TiO₂ as a catalyst: Effect of adsorption, pH and light intensity

Seyfeddine Bendjabeur, Razika Zouaghi, Bachir Zouchoune, Tahar Sehili

PII: S1386-1425(17)30772-2
DOI: doi: [10.1016/j.saa.2017.09.045](https://doi.org/10.1016/j.saa.2017.09.045)
Reference: SAA 15479

To appear in: *Spectrochimica Acta Part A: Molecular and Biomolecular Spectroscopy*

Received date: 21 February 2017
Revised date: 14 September 2017
Accepted date: 16 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

DFT and TD-DFT insights, Photolysis and Photocatalysis investigation of three dyes with similar structure under UV irradiation with and without TiO₂ as a catalyst: effect of adsorption, pH and light intensity

Seyfeddine Bendjabeur¹, Razika Zouaghi¹, Bachir Zouchoune^{2, 3} and Tahar Sehili¹.
