An in-situ Raman study on pristane at high pressure and ambient temperature

Jia Wu, Zhiyong Ni, Shixia Wang, Haifei Zheng

PII: S1386-1425(17)30585-1
DOI: doi: [10.1016/j.saa.2017.07.026](https://doi.org/10.1016/j.saa.2017.07.026)
Reference: SAA 15313

To appear in: *Spectrochimica Acta Part A: Molecular and Biomolecular Spectroscopy*

Received date: 16 April 2017
Revised date: 15 July 2017
Accepted date: 18 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

An *in-situ* Raman study on pristane at high pressure and ambient temperature
